

Date: 11th May 2023

Dear Parent / Carer,

Curriculum Update for Year 10

As you know, your child has been studying their accelerated option during Years 9 and 10. Over the next few weeks they will finish their accelerated course.

One of the many benefits of an accelerated option is it frees up time later on for core subjects, which are essential for sixth form, college and employment, and it enables students to choose intervention sessions to help them catch-up or to excel in their other courses. The table below shows how this works:

Year 10	<ul style="list-style-type: none"> • Three lessons for the accelerated option each week • One lesson for Tutor Lesson • Two lessons of Core PE each week
Year 11	<ul style="list-style-type: none"> • One extra lesson of Maths and Science each week • Four lessons for intervention options including Core PE

Students can choose from all the core and option subjects they are studying (see below) and Core PE for each of their four intervention lessons.

<ul style="list-style-type: none"> • GCSE English Language • GCSE English Literature • GCSE Mathematics: Foundation • GCSE Mathematics: Higher • GCSE Combined Science • GCSE Biology • GCSE Chemistry • GCSE Physics • GCSE Art and Design • GCSE Business Studies • GCSE Design Technology • BTEC Enterprise 	<ul style="list-style-type: none"> • GCSE Food • GCSE French • GCSE Geography • GCSE German • Health and Social Care • GCSE History • BTEC ICT • BTEC Music • BTEC Performing Arts • GCSE Physical Education • BTEC Sport • Supported Study
--	---

Students can select intervention options between now and **Friday 26th May** by visiting www.cc-hs.com/intervention, after discussing it with their parents/carers and Form Tutor. Intervention options start with the new timetable on Monday 19th June.

If you have any questions about this please ask your child to speak to their Form Tutor during Tutor Time or you can contact me using EduLink.

Yours faithfully,

Mr Robinson
Deputy Headteacher
