

Dear Parent/Carer

Your child will be taking their practical food exam during the week commencing 9th March 2020. This will consist of producing 3 products over a 3-hour period. They will have to showcase the practical skills that they have learnt, carrying them out independently. Students must follow a time plan that will be produced in advance, follow all hygiene and safety rules, clear away as they go as well as at the end.

It would be beneficial to them if they could practise making the chosen products during a 3-hour time period at home to enable them to identify areas that need to be improved and to build their confidence for the exam. If a 3-hour period is not feasible then practising each product individually will give them the confidence and time to identify any problems that they may encounter.

Students will be expected to bring in ingredients and dishes to produce them in where necessary. Please contact me via email cgr@cc-hs.com if you have any problems. If your child is eligible for pupil premium and you require financial assistance for this, please write in to the Executive Headteacher Mr Harding.

Your faithfully

Mrs C Green
