

Learner Records Service Privacy Notice

During Year 9, all students are registered for a Unique Learner Number (ULN) which sets up their own Personal Learning Record (PLR). The PLR is an online lifelong record of achievements which can be updated with future qualifications gained at colleges, university or with employers. PLRs are administered by the Learning Records Service (LRS) part of Education and Skills Funding Agency, an executive agency of the Department for Education (DfE). The LRS privacy notice included below can be viewed by students or parents/carers.
